Tail

sry about that piece
it looks ugly but it's simple
just build from the inside to the outside

and trust me
if this would be splitet
it would be much more harder :)

Thank you for downloading this Yoshi Papercraft =)

don't be afraid of the huge count of pieces
it is easier as it looks

at some pieces i added some stars
these stars show where which piece should be connected

also just follow the numbers and you will be fine =)

build the arms, tail and the head seperated and combine them later
buil the shell complete seperated
later you can just glue it on the back
