

Zapdos

by Brandon

Build by Skeleman

Left Wing

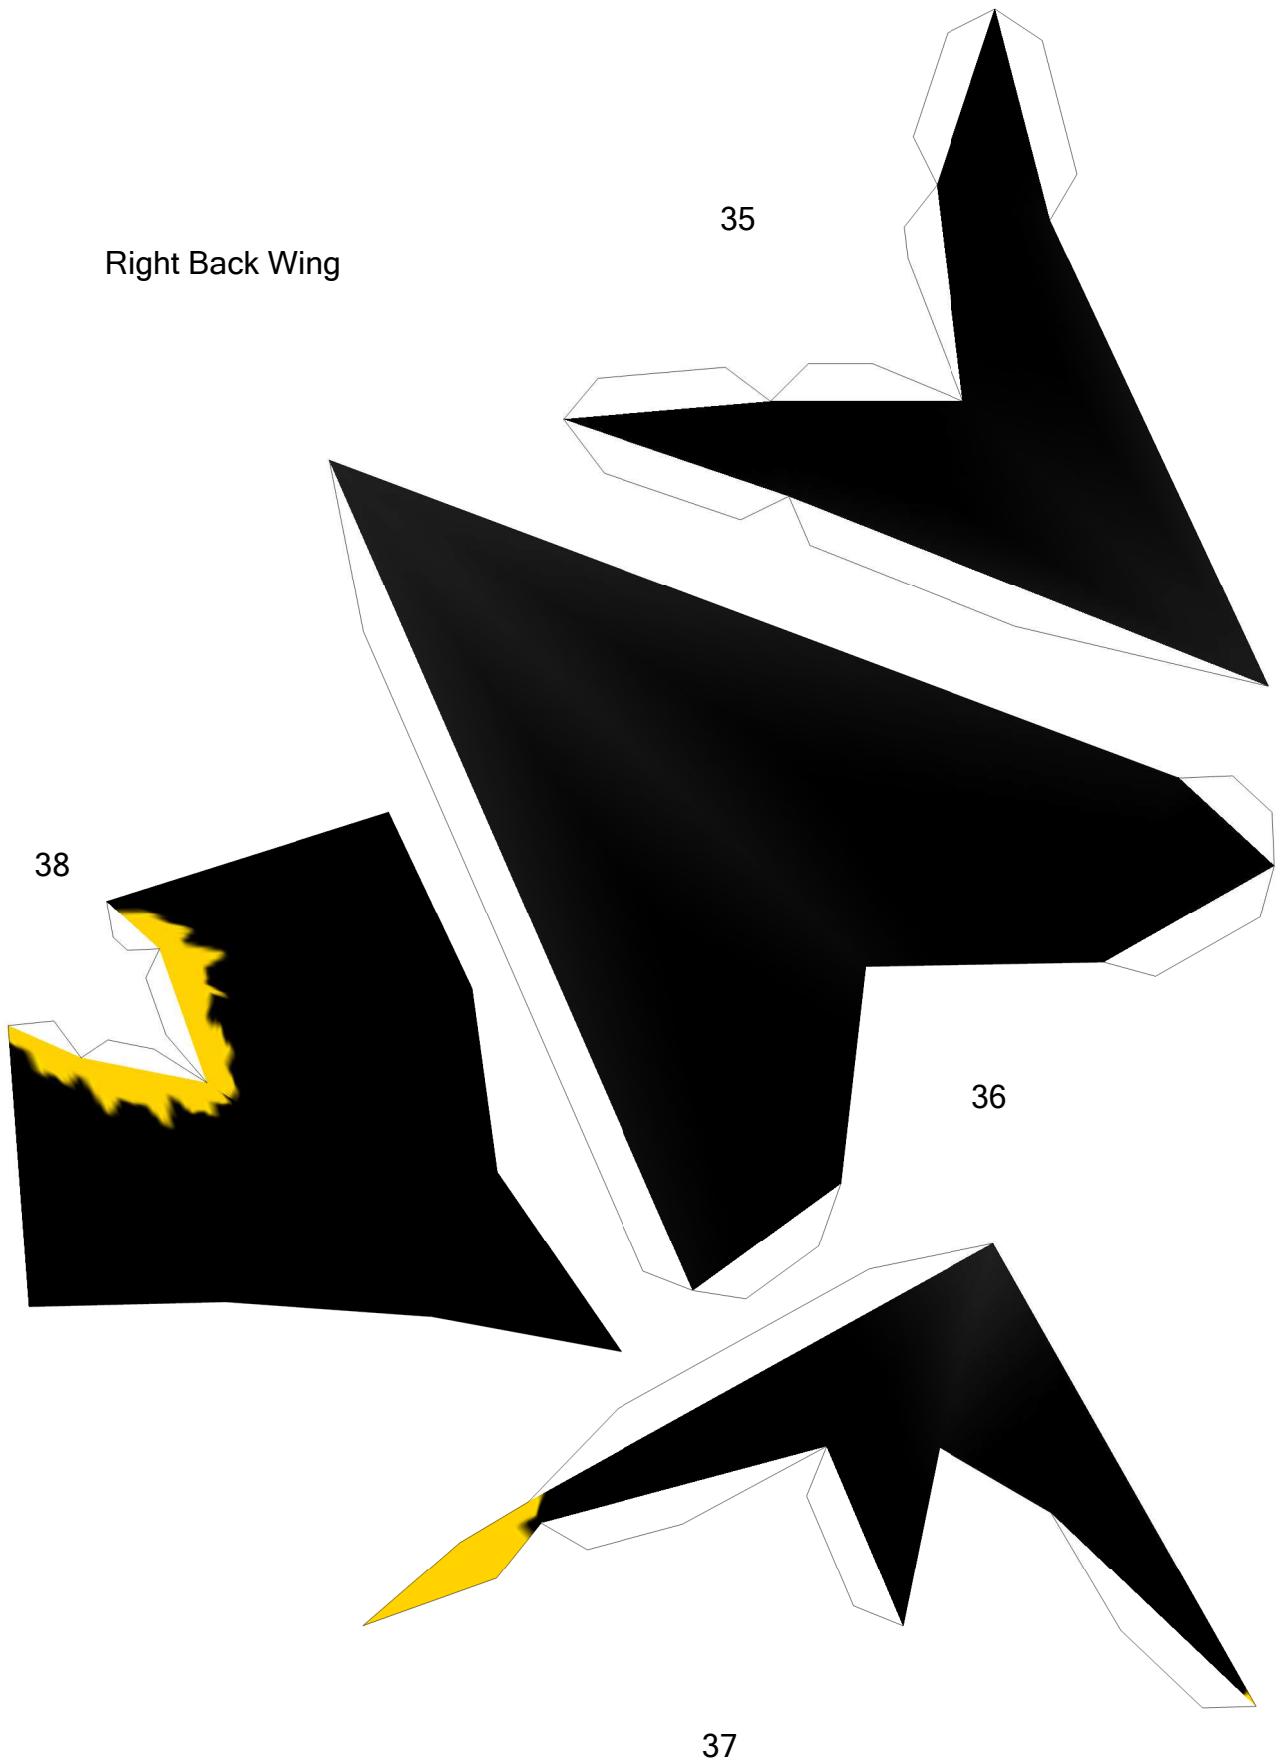

Right Wing

Left Back Wing

Right Back Wing

Glue the back wings onto the body
in the order indicated by the numbers

Outer Skirt

Outer 'Skirt'
Inner Piece

Inner Insert
Outer side

Inner Insert
Inner Side

Left Leg

54

53

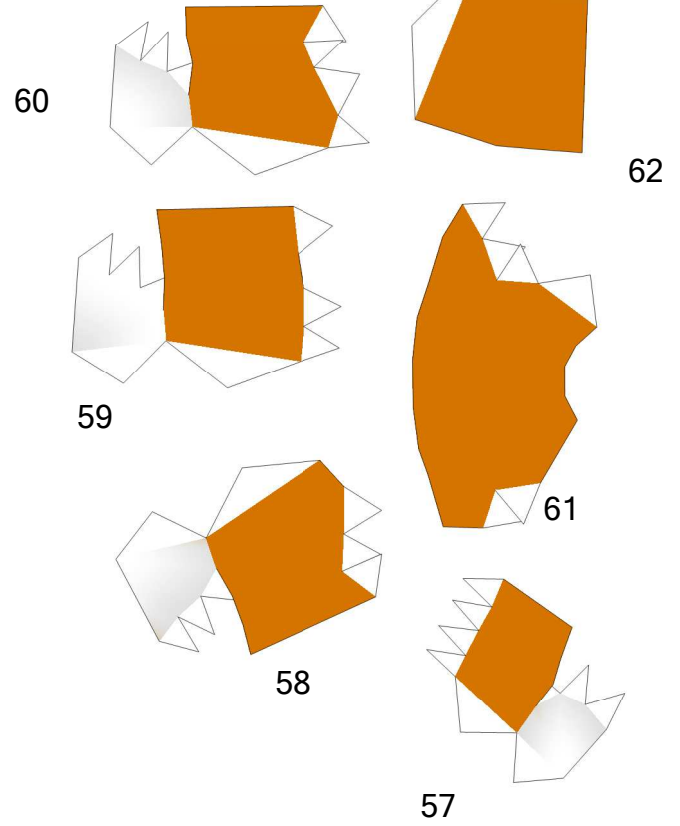

Build the toes first, attaching the rest of the foot moving towards the body. Once the brown parts are attached, be sure the yellow leg stubs (55-56, 44-45) are attached to the body, and then glue the brown parts over them.

Right Leg

65

64

-Build the yellow cones- and attach to the body. Afterward, glue the orange and brown parts of the legs to the cones.

Base

68

Base simply rests on the flat inner face of the 'tail', where the black insert and yellow insert connect

67
