

# ANJU

By Xenon

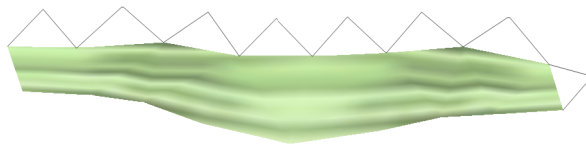

Anju works at the Stock Pot Inn in Clock Town and can be often seen at the front desk. Though she has a poor memory, allowing Link to obtain a door key in a case of mistaken identity! She also cleans the rooms and cares for her Grandmother. By speaking to her while wearing Kafei's Mask, Link can start the long Kafei-Anju sidequest to reunite the couple, due to be married on the fourth day.
